‡ 26mm outer frame with 20mm insert

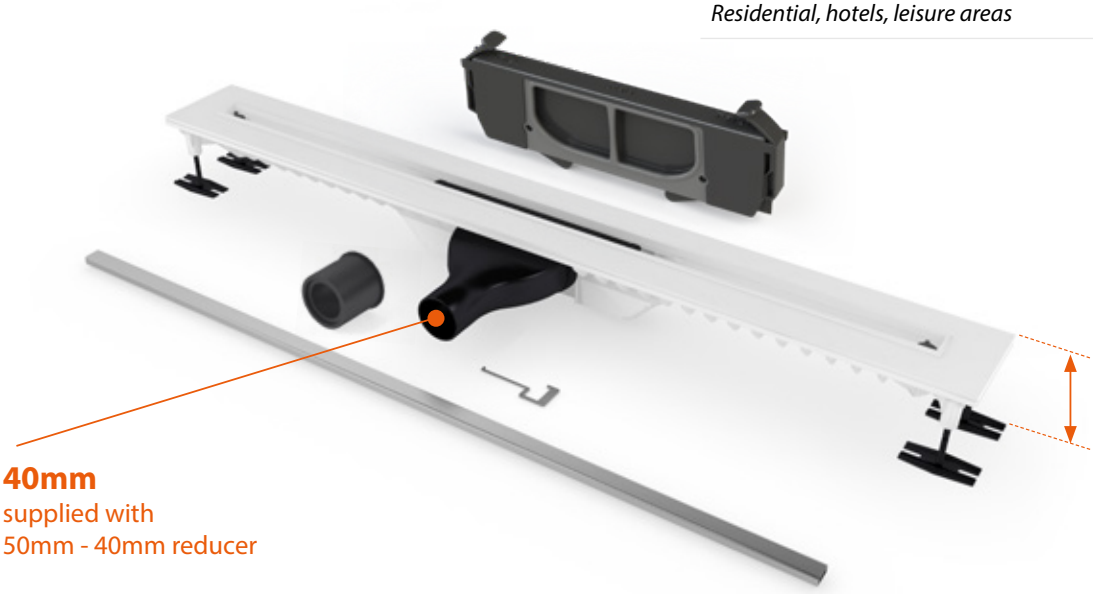

available in :

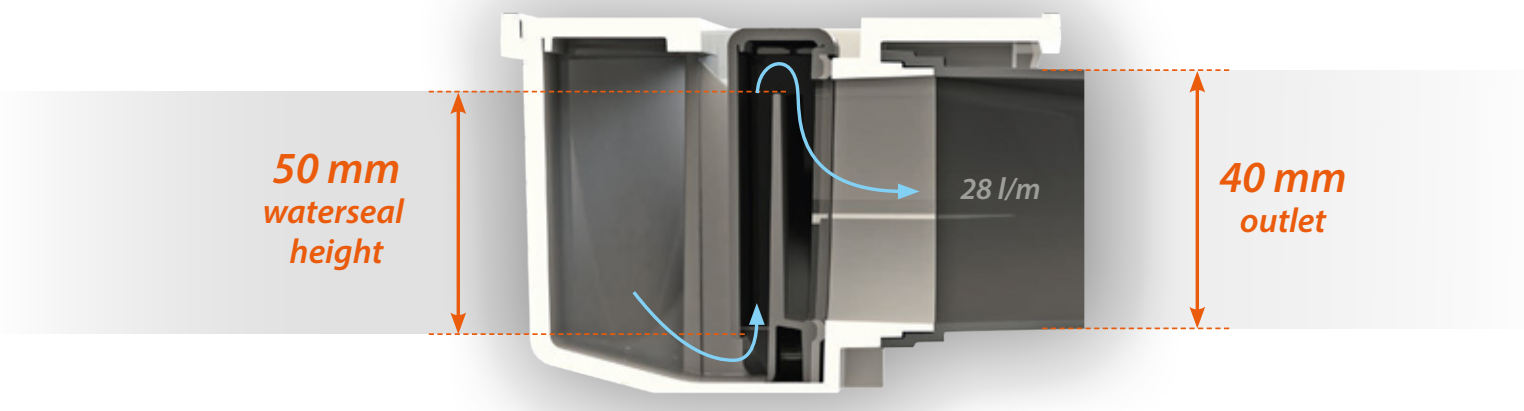

600 / 700 / 800 / 900 / 1000 mm grill length

11 colors

ideal for :

Residential, hotels, leisure areas

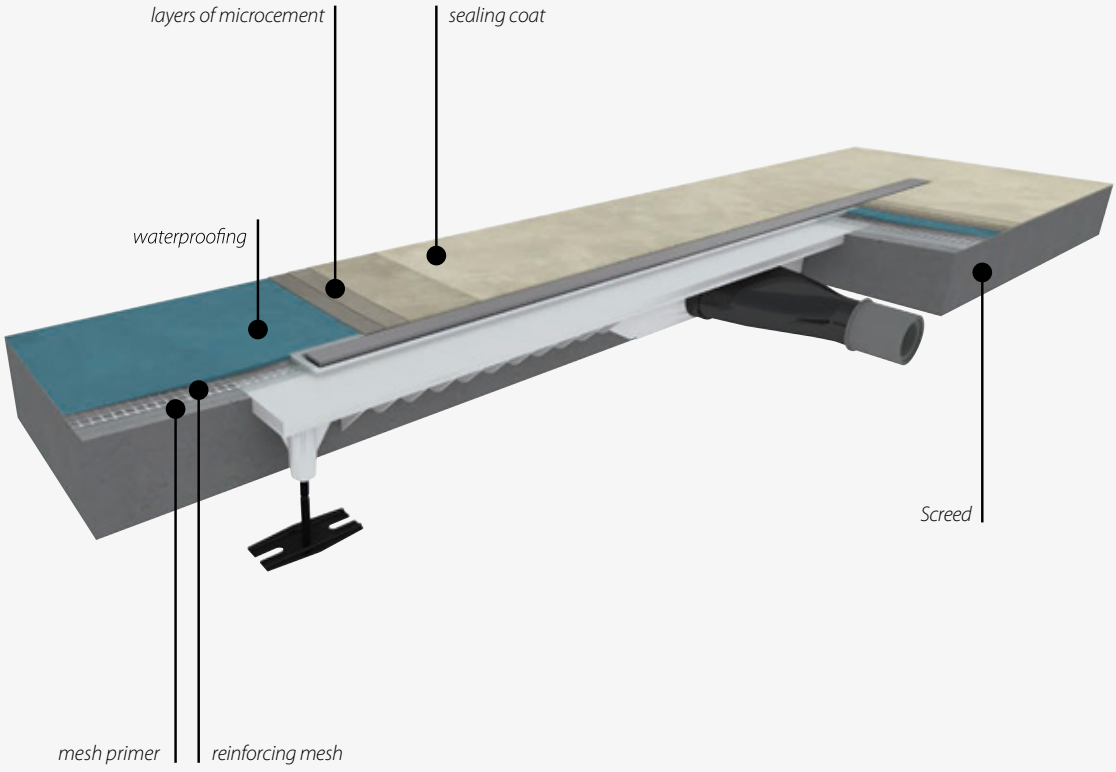

Liquid

Carrodrain Liquid is the solution for wetroom showers with a microcement or poured resin finish. The Liquid shower drain was developed in close collaboration with experienced specialists in these flooring techniques. After finishing, only a minimal opening of 26mm remains visible. Super sleek and completely seamless. With the 20mm-wide insert grill, Carrodrain Liquid is by far the narrowest shower drain for poured floors. The siphon always remains easily removable and easy to clean. Carrodrain Liquid is available in 11 standard colours. The insert can also be coloured with the same material as the final layer of your floor finish.
